

BUNDIQUICK

From a bundle to a bud in seconds, BundiQuick is your portable first response fluid containment system

The Pop Up Pool Plus delivers immediate fluid capture capability, while the unique self-inflating bladder system allows containment of the spilt fluid – and for its re-use when the spill danger has passed! Simply disconnect the quick-release valve, decant the contents of the bladder - and away you go!

Compact folded size allows BundiQuick to be conveniently stored in vehicles, while three selectable sizes capture 75-litres, 250-litres or even 565 Litres of spilt fluid, making it suitable for highway, industrial, commercial or workspace use.
