# Clinitex® Hard Surface Alcohol

## Overview

Suitable for use in care homes, hospitals, laboratories, food production/service areas and many other environments, which require rapid and effective infection control.

Each product is impregnated with 70% Isopropyl Alcohol and is effective against a range of bacteria including MRSA, E-Coli, Salmonella Typhimurium, Listeria Monocytogenes, Pseudomonas Aeruginosa, Staphylococcus Aureus and Enterococcus Faecium.

Clinitex Hard Surface Alcohol Disinfection Wipes have been independently tested for their efficacy and used on-contract by the NHS and in other healthcare environments for many years. Produced in a validated UK factory, using the very best raw materials available, they are the appropriate product of choice for healthcare professionals.

## Features and Benefits
